

INTRODUCTION:

A triangle is one of the basic shapes in geometry. An isosceles triangle is a common type of triangle. In this activity, we will be drawing, decoration and cutting out isosceles triangles to create bunting that can be used to decorate your house.

RECIPE TIPS:

- If you don't have any mango chutney to hand, then fresh mango can be a great, delicious alternative!
- (KS2) When folding the pastry to make the samosas, you will be making an isosceles or equilateral triangle

ACTIVITY TIPS:

- If you don't have a hole punch then you could use a sharp pencil (however, this action can only be done by a parent)
- Why not decorate your bunting to send a message of love, encouragement or thanks to your local community?

NUTRITION NUGGET:

- The mango and carrots in the recipe are both high in beta-carotene, which gets turned into vitamin A by our bodies. Vitamin A is really important for your immune system and eye sight in dim lighting!

CURRICULUM LINKS:

- Maths- Recognise and classify an isosceles triangle
- Art - Become proficient in drawing, painting, sculpture and other art, craft and design techniques

TOOLS REQUIRED:

- Pencil/Pen, Felt tips/ colouring pencils/ paints, Protractor, Ruler, Hole Punch, Paper
