

Lots of our favourite foods are round like Quesadillas, Pizzas, Pies and Pancakes. Often these are cut up and shared between people. Each slice you get of a Quesadilla is a fraction (piece) of the whole dish.

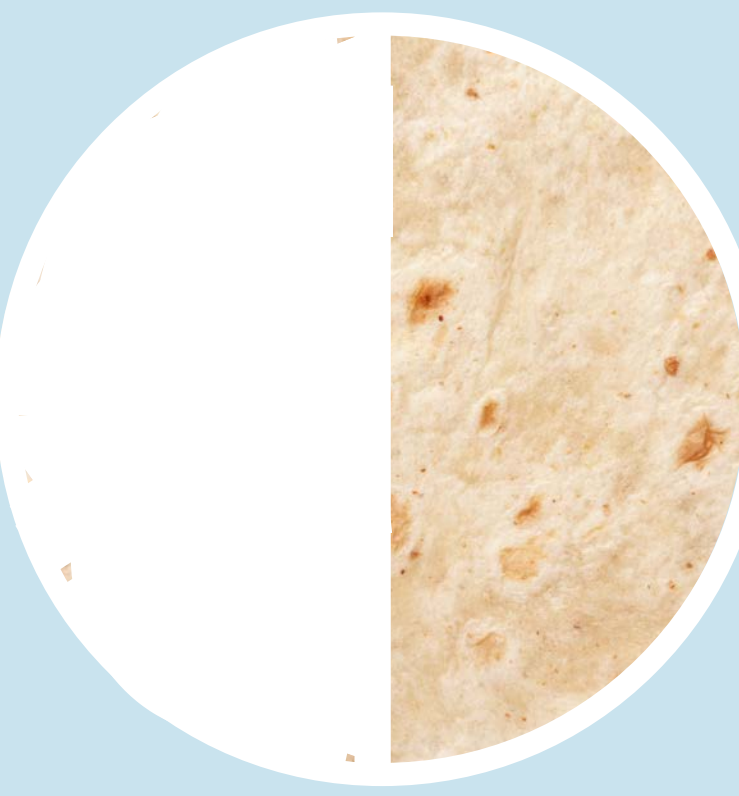

YOUR ACTIVITY

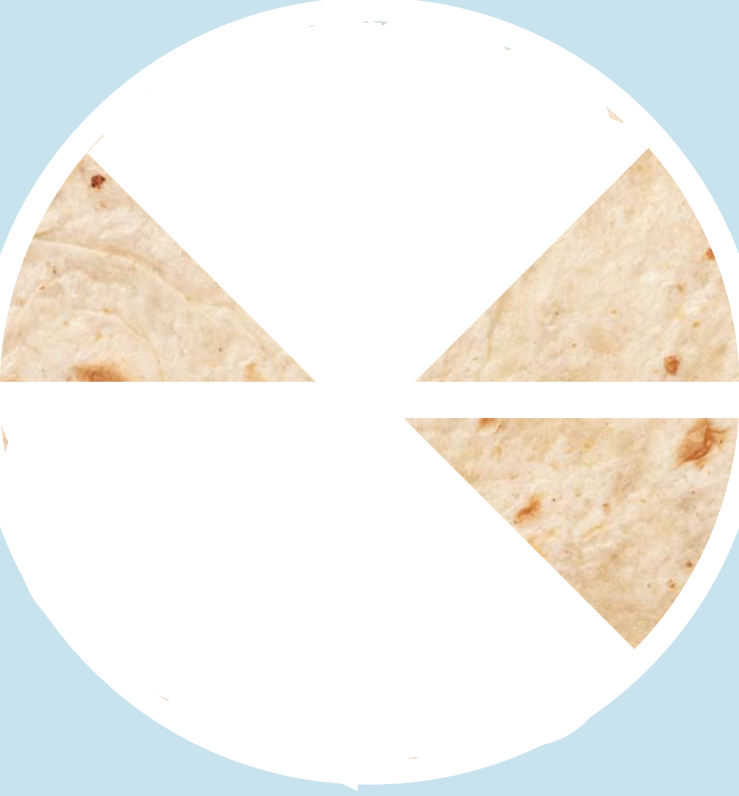

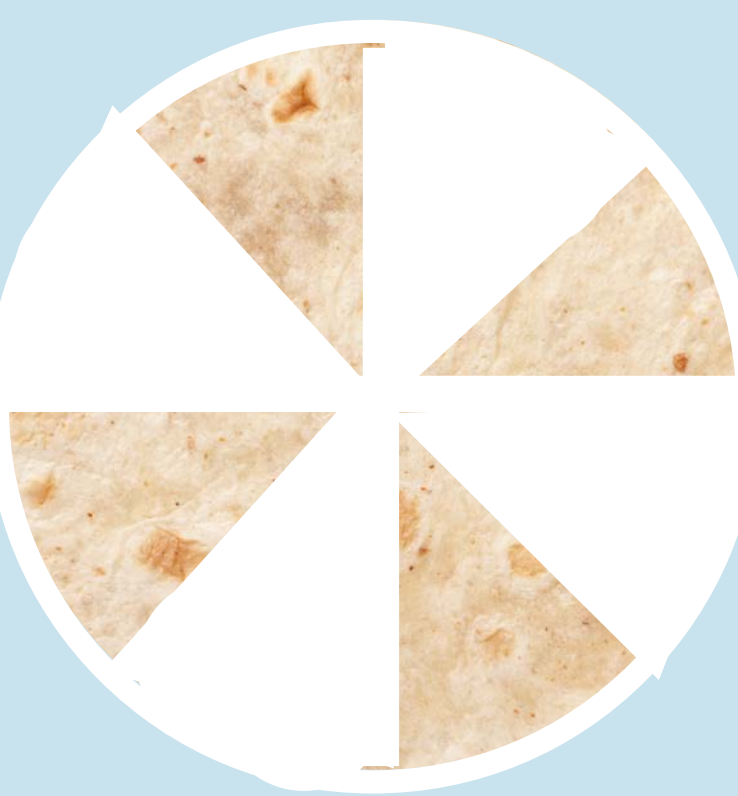

What is a fraction?
 A fraction represents part of a whole. When something is broken up into a number of parts, the fraction shows how many of those parts you have.

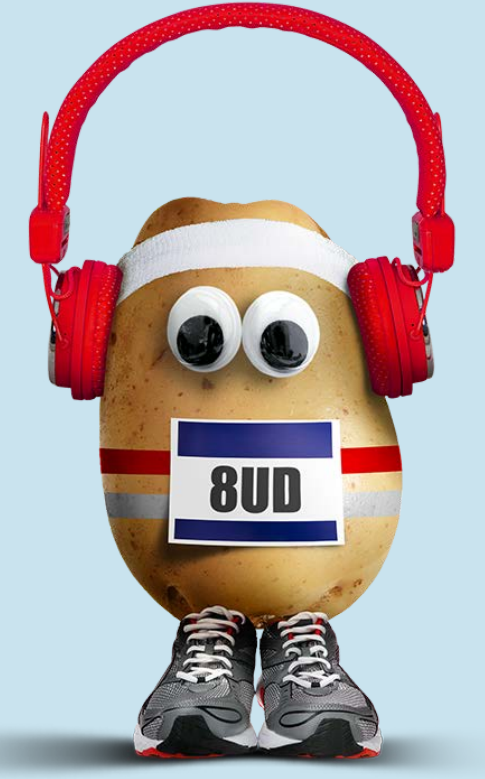

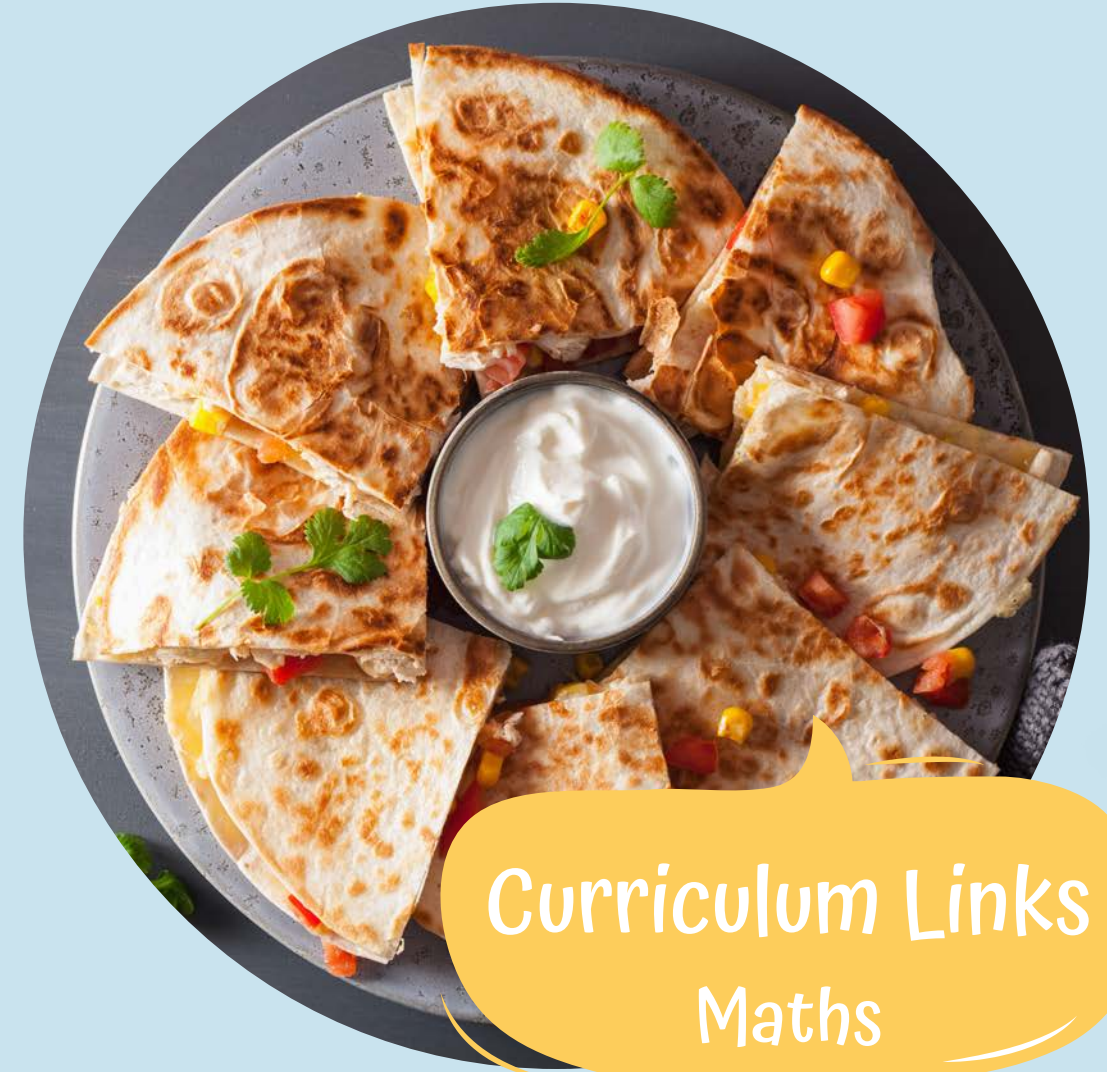

KS1 Activity:
 Can you work out what fraction of the tortilla wrap is left? Work through activities 2, 3 and 4.

KS2 Activity:
 Can you work out what fraction of the tortilla wrap is left? Work through activities 2, 3, 4 and 5. Can you draw your own fractions?

1  $\frac{1}{1}$  $\frac{1}{4}$

3  $\frac{1}{2}$ **4**  $\frac{1}{4}$

5  +  $\frac{4}{8}$
